- A) Water level- Riser management- Water level is at 4". The board discussed water level management. The riser at the pond is missing and suspected of unauthorized removal. The board will add the missing riser in spring and discuss the removal of the riser with HHCA.

- B) Website- The Board complimented M. Bruhl for the improvements to the website. Added changes will include current financials and correcting any technical issues.

Financial Report

- A) M. Bruhl will include financials on the HHLA website.

Goose Management

- A) The board discussed the importance of geese management and addling eggs. There is a potential for early nesting near homes due to possible warmer weather. The geese population has increased significantly, with geese walking up the highway from other ponds. Since our earlier resource from University of Toledo is no longer available, the board is looking for an outside source to help with the addling of eggs.
